FEATURED IN HGTV'S GET OUT, WAY OUT!

AWARDED "MASTERS OF DESIGN" BY POOL & SPA NEWS

CHOOSE THE SCENE YOU WANT!

## IMPROVE YOUR VIEW, THEN WRITE A 5 STAR REVIEW!

Garden Artisan Scott Cohen, Supervising Designer & President of The Green Scene Inc., is an acclaimed garden designer, author, and licensed contractor in landscape, pool and general construction whose award-winning work has been showcased frequently on HGTV and in numerous books and national magazines.

A charismatic and entertaining speaker, Cohen is also the author of eight design and construction books, including the award-winning Outdoor Kitchen Design Workbook, Poolscape, The Candid Contractor, and Outdoor Fireplaces and Fire Pits.

Scott serves as our Supervising Designer and oversees the design and construction of high-end projects.

“Every job is a self-portrait of the person who did the work. Autograph your work with excellence.”

“Green Scene delivered a stellar landscape for our dream home! They are easy to work with and most of all the pride in their craftsmanship is second to none!”

— Krista J.

“I can't say enough about the experience I had with Green Scene Landscaping. From start to finish the experience was nothing but pleasant. They show you the design in Virtual 3D before you decide to proceed. It's fantastic!”

— Mark A

“You know how the old adage goes, ‘You get what you paid for?’ Thank you Green Scene for making our backyard something to be so proud of and a staycation for us to enjoy everyday.”

— Michelle K

“I didn't even like my home before you did the backyard. Now I love my home.”

— Amy M

“Their team is cohesive, creative and attentive. They worked with the city & local Homeowners Association to obtain all permits and kept us well-informed of their scheduling plans. Green Scene is a class act. You get what you pay for... first rate design and execution!”

— Dan D

“Two thumbs up. Super and extraordinary!!! It came out beyond our expectation.”

— Inboon K

## THE GREEN SCENE IS UNIQUELY QUALIFIED WITH CONTRACTOR LICENSES IN LANDSCAPE, POOLS AND GENERAL CONSTRUCTION – WE DO IT ALL!

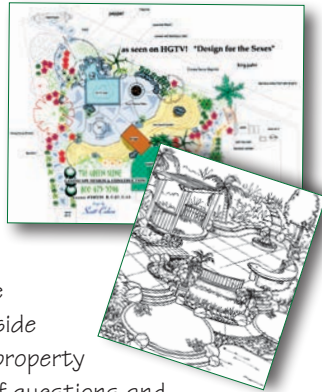

The Green Scene is uniquely qualified to handle your total project. We're a licensed landscape, pool and general construction contractor, which means trained and experienced Green Scene crews are on the job every step of the way. No excuses and no headaches. Why struggle to coordinate multiple contractors... when the Green Scene can do it all?

### CREATING A DESIGN JUST FOR YOU

Your needs are unique. That's why the first step in any project is our exclusive Design Questionnaire. Your answers help us better understand your wants and needs. What style is your house? What theme would you like for your landscape and hardscape project? How do you plan to use your yard? Your answers to these and many other questions create a foundation for our design work, and set important budget and functional parameters that will guide the project.

### EXPLORE IDEAS WITH SKETCHES FIRST

Once we have plotted your house and property lines (the "base map"), our design team will begin conceptual drawings. These ideas are drawn out in pencil for your review. We often provide several ideas from which you can choose.

### SCHEDULE A CONSULTATION

Call our office now to schedule a design consultation. It's free within our regular service areas (consultation fees apply outside our regular service map). Our talented designer will walk the property with you and discuss ideas for improvements. We ask a lot of questions and we want you to ask us anything you want about our ideas and the services we offer. We come prepared with hundreds of photos of our inspirational projects to help explore the right vibe for your garden space. At the end of the consultation meeting, if we both feel it's a good match, then we will quote a "Design Retainer" to prepare scaled, full color, 3D drawings and a detailed proposal. Design Retainers and consultation fees are typically credited toward construction projects built by **The Green Scene**.

To qualify for the **Free Consultation**, we ask that all parties be present at the consultation and that you give us a "Yes" or "No Thanks" answer at the time of the meeting.

### INNOVATIVE COMPUTER-AIDED DESIGNS

Based on your feedback on the concept drawings, we create colorful landscape plans using computer aided design. Clear and detailed printouts will show you the proposed layout of landscaping, hardscaping, and water features. Your new yard will be easy to understand and visualize.

### HOME OWNERS ASSOCIATION APPROVED

Since 1969 we have worked with hundreds of Home-Owners Associations. Our professional, colorful, computer drafted plans are welcomed by Home-Owners Associations and quickly approved.

### WHEN YOU HIRE US THE DESIGN IS FREE!

We charge for design work. Design fees typically run between \$1000 and \$2500, but we credit design fees 100% toward the installation of your Green Scene project.

### PROFESSIONAL LANDSCAPE LIGHTING

Most projects include a separate night lighting plan with detailed fixture recommendations and a pricing worksheet. We install only top quality fixtures that outlive anything else on the market. We'll create a dramatic after-dark effect that brings your new landscaping to light!

## LANDSCAPE, GENERAL & POOL CONTRACTOR • COMPETITIVE PRICING

# TOP FIVE POOL DESIGN TRENDS

## 1 BAJA SHELVES

These pleasure platforms provide the perfect place to enjoy your pool's soothing water while taking in the warmth of El Sol, or beating the heat beneath a large umbrella. Typically six to twelve inches deep, Baja Shelves can be made most any size for individual lounging or family fun. Add a couple of "Ledge Loungers" for a truly resort-like feel.

## 2 CONTEMPORARY DESIGN

Design trends come and go over the years, while some have far more staying power than others. When it comes to custom exterior design, and especially so for spaces that include water, contemporary, or a.k.a. modern design is an enduring favorite that is experiencing a current surge in popularity. Modern design can also be a great way to make the most out of limited spaces with uncluttered layouts and simple, yet dramatic forms.

## 3 IN-POOL TABLES

If the idea of hanging out in the shade of an umbrella while also sitting in your pool sounds appealing, you may want to consider an In-Pool Table. More intimate than a swim-up bar, and reminiscent of vacation luxury, In-Pool Tables are perfect for socializing, playing games or enjoying your favorite summertime beverage.

## 4 INFINITY SPAS

Spas are always among the most used features in most any aquatic setting. Recently spas that feature 360-degree overflow designs have become extremely popular among homeowners interested in making their hot tubs into artistic, almost sculptural statements. With this beautiful design detail, spas become waterfeatures that invite you to relax in an elegant setting.

## 5 THE VANISHING EDGE

By far one of the most popular and enduring swimming pool design features, the vanishing edge creates subtle visual drama that almost hypnotically draws you into the view, while generating the soothing sound of falling water. Vanishing edge pools have become the standard bearer for great designs and while they're not meant for every yard, these pools almost always take your breath away.

## DESIGNING WITH FIRE AND WATER

At The Green Scene we understand the captivating power of these two elements. Used alone, fire and water each have their own attractions, but bring them together and the appeal is nearly irresistible! The addition of the fire element is one of the hottest trends we're seeing in outdoor design.

Fire takes you away from wherever you are. It relaxes and soothes. When you're gazing into a fire, you simply can't be in a hurry.

To create this visual candy, majestic bowls and troughs of fire are used to add striking highlights throughout the yard. The effect is both elegant and primitive at the same time.

For the romantic at heart, it goes without saying that nothing heats up a relationship like a little fire.

## MEET THE GRILL OF YOUR DREAMS!

### LET US BUILD YOUR DREAM KITCHEN... OUTDOORS!

Our stylish custom counters are designed with exactly the colors, features and layout you want. Plus, our exclusive cast concrete construction method is as tough as it is beautiful.

### POLISHED CONCRETE COUNTERTOPS

We create one-of-a-kind custom counters by embedding the stone mixture with a variety of recycled glass, stone chips, sea shells, and abalone. Next we grind, hone, and polish, using granite finishing tools to create a beautiful and extremely durable outdoor kitchen counter.

### HIGH-END BBQ'S & APPLIANCES FROM *Alfresco*.

We love this grill for Rotisserie cooking. The motor is hidden inside, gear driven, quiet and strong! Check out the separately heated wood chip and aromatics drawer!

### GET THE EDGE...

Choose your favorite

**CONTEMPO**  
(Square Edge)

**CLASSICO**  
(Mantle)

**RUSTICO**  
(Chipped Edge)

**ROMANO**  
(Rope Edge)

### SEE IT FIRST IN 3D

## PIZZA PARTY!

THE BEST HOME-MADE PIZZAS ARE UNDER THE DOME...

Of course, they are great for steaks, chicken, ribs, and fish, but the pizzas are the best! Family and guests have so much fun making their own pizzas and then grilling them up outside.

**PRO-TIP:** Add some wood chips to your Dome Grill for an authentic wood-fired pizza oven flavor!

"WE LOVE THE VERSATILITY OF THESE COLORFUL DOME GRILLS."
